### [Aerospace Engineering and Operations Technicians](#)

Aerospace engineers design, develop, and test aircraft, spacecraft, and missiles, as well as supervise the manufacture of these products. Those who work with aircraft are called aeronautical engineers, and those who work specifically with spacecraft are called astronautical engineers.

### [Best States For Aerospace Engineers, 2019 - Zippla](#)

261 Aerospace Engineer jobs available in Colorado on Indeed.com. Apply to Aeronautical Engineer, Mechanical Engineer, Propulsion Engineer and more!

### [Why CU? | Computer Science | University of Colorado Boulder](#)

Aerospace engineers are most often employed by the Aircraft & parts manufacturing industry. The average yearly wage for Aerospace engineers was \$109,287 in 2016. The top 3 most similar occupations to Aerospace engineers by wage are Software developers, applications & systems software, Other financial specialists...

### [Aerospace Engineer Jobs, Employment in Colorado | Indeed.com](#)

Computer science is in high demand in many major industries, including business, health care, food, education, aerospace, energy, mass media and telecommunications. In today's fast-paced, computer-driven society, combining your previous educational knowledge with applied computer science will open a vast number of employment opportunities.

### [Aerospace engineers | Data USA](#)

Best states for Aerospace Engineers to start a new job or career in 2019: District of Columbia, Virginia, Georgia, Maryland. Based on recent data. We used the most recent data to determine the best states for Aerospace Engineers to start a new job or career in 2019. ... Location Quotient is a measure used by the Bureau of Labor Statistics (BLS ...

### [Aerospace Engineer Jobs, Employment in Orlando, FL ...](#)

Computer science is in high demand in many major industries, including business, health care, food, education, aerospace, energy, mass media and telecommunications. In today's fast-paced, computer-driven society, combining your previous educational knowledge with applied computer science will open a vast number of employment opportunities.

### [Does an Aerospace Engineer Earn More Than a Pilot? | Chron.com](#)

17-3021 Aerospace Engineering and Operations Technicians Operate, install, calibrate, and maintain integrated computer/communications systems, consoles, simulators, and other data acquisition, test, and measurement instruments and equipment, which are used to launch, track, position, and evaluate air and space vehicles.

### [Aerospace Engineer | Science & Engineering Career](#)

Aerospace engineers design aircraft, spacecraft, satellites and missiles, according to the BLS. In addition, these engineers test prototypes to make sure that they function according to plans. These professionals also design components and subassemblies for these craft; those parts include engines, airframes....

### [What Is Aerospace Engineering? | Live Science](#)

Graduate. No matter your research interest, CU Boulder is the perfect place to take your education to new heights. Enjoy interdisciplinary research opportunities in cognitive science, aerospace engineering and information sciences (just to name a few!). Prepare to launch your own startup on a campus focused on entrepreneurship, in one of the most entrepreneurial cities in the nation.

### [CS Online | Computer Science | University of Colorado Boulder](#)

Which Engineering Colleges Are in the Denver, Colorado Area? Find engineering programs in the Denver, Colorado area. Learn about the different schools, programs, enrollment numbers, and tuition rates for the Denver, Colorado, area. Schools offering Computer Engineering degrees can also be found in these popular choices.

### [Aerospace Engineers - bis.gov](#)

Aerospace engineers are employed in industries whose workers design or build aircraft, missiles, systems for national defense, or spacecraft. Aerospace engineers are employed primarily in manufacturing, analysis and design, research and development, and the federal government.

### [Aerospace Engineer BIs](#)

Aerospace engineers are employed in industries whose workers design or build aircraft, missiles, systems for national defense, or spacecraft. Aerospace engineers are employed primarily in manufacturing, analysis and design, research and development, and the federal government.

### [Aerospace Engineers - Bureau of Labor Statistics](#)

Aerospace engineering and operations technicians operate and maintain equipment used in developing, testing, producing, and sustaining new aircraft and spacecraft. Work Environment. Aerospace engineering and operations technicians usually work in manufacturing or industrial plants, laboratories, and offices.

### [Aerospace Engineers - bis.gov](#)

Aerospace engineers design primarily aircraft, spacecraft, satellites, and missiles. Bachelor's degree: \$115,220. Agricultural Engineers: Agricultural engineers solve problems concerning power supplies, machine efficiency, the use of structures and facilities, pollution and environmental issues, and the storage and processing of agricultural products.

### [Questions? | Computer Science | University of Colorado Boulder](#)

SBI is seeking a Journeyman Aerospace Engineers (BLS SOC No. 17-2011) to work in Orlando, Florida on a US Government Contract. ... Engineer - Aerospace Engineer - Orlando, Florida. ... Be the first to see new Aerospace Engineer jobs in Orlando, FL. My email: By creating a job alert or receiving recommended jobs, you agree to our Terms. You can ...

### [Architecture and Engineering Occupations : Occupational ...](#)

The U.S. Bureau of Labor Statistics (BLS) reports there were 81,000 aerospace engineers and 103,500 pilots employed in 2010. Aerospace engineers had a higher median annual salary in 2012 than...

### [Aerospace Engineering and Operations Technicians ...](#)

17-2011 Aerospace Engineers. Perform engineering duties in designing, constructing, and testing aircraft, missiles, and spacecraft. May conduct basic and applied research to evaluate adaptability of materials and equipment to aircraft design and manufacture. May recommend improvements in testing equipment and techniques.
