Virtual Labs Update:

December 2019 Major browsers, like Chrome, Edge, and Safari, block the use of Flash and Adobe has planned to completely kill the platform in 2020. There are few alternatives to the large amount of Flash games and science simulations. The ones listed below will no longer work.

defined and used to decide which items are placed in which group.

Create Your Own Dichotomous Key Lab

Classification is a way of separating a large group of closely related organisms into smaller subgroups. The scientific names of organisms are based on the classification systems of living organisms. The

Each lab group requires the following items to perform all the activities. You may want to set up the activities at stations and have student teams rotate through them. If so, print the instructions onto a card for each station. Nail (3" or longer) $\frac{1}{2}$ tsp Yeast (in a labeled test tube) 20 mL Hydrogen
