Offices and Units -- Headquarters U.S. Army Corps of Engineers

It is impossible to know what will be in a given AAR. However, AARs for smaller units, such as Field Artillery Battalions, Combat Engineer Battalions, Armored units, or Military Police outfits, tend to provide more detail in connection with the individual service of their collective soldiers.

Combat Engineer (12B) | goarmy.com

If it's a combat engineer position that interests you, the U.S. Army says this job is primarily supervisory in nature. Combat engineers' mission is to supervise or assist team members when tackling rough terrain in combat situations. The combat engineer must exhibit expertise in mobility, counter-mobility, survival, and general engineering.

Engineer Unit and Organization Links

Usually, a combat engineer is also trained as an infantryman, and combat engineering units often have a secondary role fighting as infantry. Beyond self-defense, combat engineers, infantry and assault troopers from armored corps units are generally the only troops that engage in the assault while dismounted.
