329A – Analytical Procedures

Analytical Procedures - AICPA

According to the International Standards for Auditing 520, Analytical procedures mean evaluations of financial information made by the study of plausible relationships among financial and non-financial data.

Audit Planning and Analytical Procedures

Analytical procedures are compulsory at two stages of the audit under ISA 520 namely the planning stage and the review stage. Analytical procedures use calculations such as financial ratios to generate an expectation of what a figure is likely to be and then comparing this to the actual figure in the accounts.

Audit Planning And Analytical Procedures

Analytical procedures used in planning the audit generally use data aggregated at a high level. Furthermore, the sophistication, extent and timing of the procedures, which are based on the auditor's judgment, may vary widely depending on the size and complexity of the client.

Chapter 8: Audit Planning and Analytical Procedures ...

Analytical procedures are a type of evidence used during an audit. These procedures can indicate possible problems with the financial records of a client, which can then be investigated more thoroughly. Analytical procedures involve comparisons of different sets of financial and operational information, to see if historical relationships are continuing forward into the period under review.
