Case IH 7140 rotary harvester with corn front with cutaway showing rotary threshing mechanism Axial flow combines (also known as rotary harvesters) are a type of combine harvester that has been manufactured by International Harvester , and later Case International , Case Corporation and CNH Global , used by farmers to harvest a wide range of grains around the world.

### ~~Simple Repair Kit Solves Case IH Combine Problem~~

Simrose said the rails on his Case IH 1688 combine are built fairly light where the chaffer sits and eventually they crack and break. "I talked to the combine wreckers when (mine) broke, because ...

### ~~Case IH Combine Parts~~

A 1688 is 22 years old so unless you find one stored away and not used they are going to have wear. Any combine if it has more than 4000 hrs assume engine needs replacement. The engine might go longer . or will blow up at anytime. When looking at combines assume you are going to need rasp bars and concaves in at least one year.
