After the Do Now, the lesson begins at the Station Models section, where students first learn what station models are and how to interpret them. On the first page of the resource, students get to see what station models look like for the first time (Note: They can also consult page 13 of their Earth Science Reference Tables [ESRT] for a similar model).

Station Model Lab - 3 - ©HGB 3/27/2000 Part 1 Using the station models below, decode the weather conditions and record the information displayed in the following table: Station 1 Station 2 65 998 84 011 0 3 1 =- 0 + 64 0.2 60 Station 3 Station 4 40 001 70 982, +10 • -93 38 1.5 65 0.3 Station 5 28 012 *-22 25

[Earth Science Lab Station Models](#)

This barometric pressure information is indicated as follows on the station model: Example + 34 / The "+" means that the pressure is higher now than it was 3 hours ago. The "34" is code for 3.4 mb. This is how much higher the barometer is now than it was 3 hours ago. The "/" means the barometer is still rising now.

SCIENCE ACTIVITY: STATION MODEL EXERCISE SCIENCE ACTIVITY STATION MODEL EXERCISE PART 1 Below is an example of a weather station model. Notice that there is an explanation for each entry in the model. Study the model carefully and then answer the following questions. Refer to Appendix D in your Lab Manual to find the meaning of each symbol. 1. What do you notice about the location of the symbols for each type of cloud in the model?.
