You will receive incredibly detailed scoring results at the end of your Statistics practice test to help you identify your strengths and weaknesses.

Qualifications
Explanation: . The net torque on the pulley is zero. Remember that . assuming the force acts perpendicular to the radius.Because the pulley is symmetrical in this problem (meaning the r is the same) and the tension throughout the entire rope is the same (meaning F is the same), we know that the counterclockwise torque cancels out the clockwise torque, thus, the net torque is zero.
