rewrite of my Boeing 737-800 panel published in 2015. It includes a lot of new features including a working HUD, a Yoke, a new fully functional Overhead panel, upgraded gauges, a cockpit sounds package, and a VC panel. It is designed for 1020X1080 (16:9) monitors although will work on other sizes with some distortion.

The Overhead Panel.
The overhead panel is the nerve center of the aircraft systems and replaces many of the controls previously located on the flight engineers panel. the following page shows how the function and layout of this important panel has evolved from its roots in the 1950's.
