Physics: Principles with Applications. Textbook as a Tool. Page Layout and formatting was a key focus of this revision, even more than in the previous edition. Great effort was made to keep important derivations and arguments on facing pages so students do not have to flip pages to continue derivations or locate key figures referenced in the text.

44.  $^{55}\text{Cs-124}$  has a half life of 30.8 s. (a) if we have 7.8 micrograms initially, how many nuclei are present? (b) How many are present 2.0 min later? (c) What is the activity after this time? (d) After how much time will the activity drop to less than 1 per second? This process is to solve for part (d) as represented by the upcoming test.
