[Harley Davidson Twin Cam Engine Problems? What To Do—](#)

The Twin Cam 96Ci is a high-powered engine produced by Harley-Davidson Motorcycles. The engine was released in 2007 and, according to Harley-Davidson, the Twin Cam system provides cleaner burning and improved engine performance. The Twin Cam 96 engine replaced the Twin Cam 88, which was produced between 1999 and 2006. Engine Specifications

[Harley 96 Engine Performance Upgrade](#)

For most of us that have (or had as the case may be) the stock 96ci TC engine compared to H-D's OEM displacement offerings from the past, the 96 produces improved performance. In an OEM state of tune the engine puts out decent power, spools up easily, is stone reliable, and works well as a package.
