

## Heat Calculations Answer Key If8767 Pg 25

Here is an updated version of the \$domain website which many of our East European book trade customers have been using for some time now, more or less regularly. We have just introduced certain upgrades and changes which should be interesting for you. Please remember that our website does not replace publisher websites, there would be no point in duplicating the information. Our idea is to present you with tools that might be useful in your work with individual, institutional and corporate customers. Many of the features have been introduced at specific requests from some of you. Others are still at preparatory stage and will be implemented soon.

*Calculations involving heat and specific heat* *How to calculate specific heat: Example specific heat problems* *Specific Heat Capacity Problems* *Calculations - Chemistry Tutorial - Calorimetry* **Calorimetry Examples: How to Find Heat and Specific Heat Capacity** Thermodynamics: Calculating Latent and Specific Heat, Example Problem
