First of all, you have to realize that learning faster starts with how we approach our learning. When we approach it with the wrong mindset or set of beliefs, we unconsciously set a ceiling for our potential. In contrast, when we approach learning with the right mindset, then the opposite happens; we can leverage our brain’s full potential.

Learning a new language can be difficult, but it's not impossible. Learning any language can be broken up into four pieces: reading, writing, listening and speaking. If you want to learn English faster, get started with Step 1 below. Read,...

## *How To Learn Faster With*

Some studies have found that light exercise while studying can help you to learn faster. For people who are very physical and active, being forced to stay still for too long can also make it hard to stay focused, so exercising while studying can also be helpful in that way. For example, try walking around a large room while you read your textbook.

But each time you review the topic, use a different resource or method – you'll learn faster this way. 2. Study multiple subjects each day, rather than focusing on just one or two subjects. It's more effective to study multiple subjects each day to help you stay focused, than to deep-dive into one or two subjects (Rohrer, D. 2012).
