Start studying IB Psychology HL Paper 1. Learn vocabulary, terms, and more with flashcards, games, and other study tools.

Old exams - Psychology HL2013-14
My personal opinion is that there's too much content in the IB Psychology syllabus – this is why we're seeing that despite the fact that it should be ridiculously easy to get a 7 in Paper One, only 4% of kids can do it. Only 4%, it seems, can explain a concept and use evidence to support it. That's all they have to do.

Ib Psychology Paper 1
The IB Psychology Paper 1 examination has three sections - DO NO study for two of these! Choose one of either the IB Psychology Biological Level of Analysis, The Cognitive Level of Analysis or the Socio-Cultural Level of Analysis. Focus your study and preparation here and get really good at this one section.

Focus your study and preparation here and get really good at this one section.

IB Psychology HL Paper 1 Flashcards | Quizlet
Participants were presented with 2 cards, card one had three lines of different lengths, and card two had 1 line. Participants were asked to determine which of the lines on card one most resembled the line on card two. Six confederates tasked with giving incorrect estimates were placed in group one.

It's so easy to get a 7 in Paper One... | IB Psychology
*the phrase "approaches to research" is used in the official IB Psychology guide and it means "research methods" (e.g. true experiments, correlational studies, etc.) Students should be prepared for this phrasing, but hopefully the IB exam team will use the phrase "research methods" so as not to get confused with the three approaches (bio, cog & socio-cult).

IB Psychology Blog - IB Psychology
Your ability to write effective essay questions is tested to the limit in each of the three IB Psychology exams: Paper 1 requires you to answer one ERQ and three SAQs, thus half your marks are weighted on your sole essay answer. Paper 2 is only assessed through ERQs.

IB HL Psychology Paper 1 Studies Flashcards | Quizlet
CLOA Principle #1 Human beings are information processors and that mental processes guide behavior. The mind is a complex machine. Information input to the sensory system comes via bottom-up, info is processed in the mind by top-down processing.
