[Isolation \(Sympatico Syndrome #2\) by M.P. McDonald](#)

Emergence was the first post-apocalyptic novel I ever read and the one that made me into a huge Science Fiction fan. I found it in a box of my father's books when I was 11 or 12 and have read it several times since that first experience. It's a great read if you can find it, I think it might be out of print, ☹☹

An early PC game, 1986's Might & Magic, dipped a few toes into post-apocalyptic waters but relied mostly on high fantasy. Probably the first example of true post-apocalyptic storytelling in a video game setting was the 1990 cult classic Crystalis. It's set a century after a nuclear war, where the world has reverted to Medieval sensibilities.
