### 2020 Ford Transit Van - New Engines and All-Wheel Drive

Two miles from home today when suddenly next to no power, and Engine Fault-Service Now message comes up on the instrument panel screen. Limped home and shut it off. Restarted it and same thing again. Third try, no message but engine light is on. 8437 miles.. 3.7L. Called roadside assistance and having it towed to dealer tomorrow. Any ideas? Thanks

### LRT, Inc

This motorized train engine is designed as part of my LEGO Light Rail Transit (LLRT) system, which is designed to run on the flat sections of the roller coaster tracks. For more information about how it works, and to see it running, you can watch the video.

### Transit Engine for sale | eBay

A new solution for 2020 is a twin-turbo 2.0-liter EcoBlue four-cylinder diesel. Ford affirms the engine has more power and torque than the previous 3.2-liter diesel - that has been rated at 185 hp (138 kW / 187 PS) and 350 lb-ft (474 Nm) of torque - and is also quieter and a lot more fuel-efficient.
