Course Types

Bridging course is primarily offered to students who need to improve their understanding in subjects that relate to particular study programmes. For example, students who wish to pursue an engineering diploma will likely do a bridging course that focuses on maths, science and engineering drawing.

N4 N6 Courses Engineering Bridging

Upon completion of your N4-N6 studies, you must complete 2 years practical experience in your related field in order to qualify. National Diploma: Mechanical Engineering N1-N6 The NATED N1-N6 Mechanical Engineering qualification covers levels N1-N6 and is designed to provide the theory of Mechanical Engineering and an optional practical co...

Engineering Studies N1-N6 - South West Gauteng TVET College

Civil Engineering (N4-N6) Home / Academic Qualifications / Academic Programmes / Engineering Faculty / Civil Engineering (N4-N6) Engineering, the application of knowledge, typically in the form of science, mathematics, and empirical evidences to the innovation, design, construction, operation and maintenance of structures, machines and materials.

National Diploma: INDUSTRIAL INSTRUMENTATION ENGINEERING ...

National N Diploma: Engineering Studies. A minimum of 12 advanced instructional offerings; a maximum of five N4 instructional offerings. Documentary proof of two years or 2670 hours of applicable experience in the engineering industry. At least two instructional offerings at N6 level must be relevant to the vocation.

N-COURSES

Duration: three year diploma course 18 Months (N1 - N6) Theory 18 Months Practical Experience. Programmes offered at: Molapo, and Technisa Campuses. Career opportunities Apprentice, Mechanics, Electrician, Artisan, Electronic and Electrical Engineer, Engineering Technician and Technologist. CIVIL ENGINEERING N1 - N6

Register for our Engineering Courses | Distance Learning

Electrical: Heavy Current N4 -N6 Minimum Qualifications: N4 Pre-requisite National N3 Certificate with four subjects or a Senior Certificate in an pre-requisite technical discipline. N5 Pre-requisite Certificate with four subjects N6 Pre-requisite N5 Certificate with four subjects.

Courses - Denver Technical College

Mechanical Engineering N1-N6 is a Department of Higher Education and Technnology (DHET) qualification which can be obtained by passing ssubjects relevant to mechanical engineering. There are many career fields one can venture into after obtaining your Mechanical Engineering N1-N6. The time to complete the study ranges from two years and above.

Electrical Engineering Courses N1-N6 | Ekurhuleni Tech College

The National N Diploma in Engineering Studies is a National Qualification delivered under the auspices of the Department of Higher Education and Training. The N4 to N6 Engineering Studies qualifications are registered on the NQF as follows:

MECHANICAL ENGINEERING - The Draughting Academy

WHO ARE WE? Denver Technical College for Further Education and Training is a registered private Further Education and Training institution in terms of the Further Education and Training Act 98 of 1998. Denver has its Main campus situated in Pretoria Central and another campus Schoeman situated two blocks away.

Denver Technical College - We Build For The Nation

National Diploma: Engineering Studies: Mechanical N4 - N6. All the NATED programs offered are trimester based, ranging from the National Certificate level 1 (which is equivalent to an NQF qualification level 2) up to a National Certificate level 6 (which is equivalent to an NQF qualification level 5).

AIE | School of Engineering & Science

Electrical Engineering N1-N6. The N1 - N3 National Certificates in the Electrical Engineering programme cover heavy current fields such as electricity, domestic wiring and light current fields such as digital and industrial electronics. Once you have completed your entry level you can continue towards a specific electrical engineering qualification.

Mechanical Engineering (N4-N6) | CTU Training Solutions

Bridging course: A bridging course provides an alternative to Matric for students who want to enter the N1- or N4-level courses at Oxbridge Academy. Fitting and turning: An aspect of mechanical engineering that involves assembling, maintaining, and repairing various types of machinery.

Mechanical Engineering N1-N6 - AIE

A bridging course in the form of the Introductory Certificate: N4 Business Studies is an alternative to Matric — in the sense that it gives you access to further studies at N4 level at Oxbridge Academy.

National Diploma: Engineering Studies: Mechanical N4 - N6 ...

Electrical Engineering N6 is equivalent to a diploma in electrical engineering. In order to obtain a diploma in electrical engineering you need to pass N4 to N6 engineering subjects as well as have a practical experience of one and a half years in a related field.

Civil Engineering (N4-N6) | CTU Training Solutions
