What explains the peculiar intensity and evident intractability of the Israeli-Palestinian conflict? Of all the "hot spots" in the world today, the apparently endless clash between Jews and Arabs in the Middle East seems unique in its longevity and resistance to resolution. Is this conflict really different from other ethnic and nationalist confrontations, and if so, in what way?

Though the definite origins of the word Palestine have been debated for years and are still not known for sure, the name is believed to be derived from the Egyptian and Hebrew word peleshet. Roughly translated to mean rolling or migratory, the term was used to describe the inhabitants of the land to the northeast of Egypt - the Philistines. The Philistines were an Aegean people - more closely ...

The Ethnic Cleansing of Palestine is a book authored by New Historian Ilan Pappé and published in 2006 by One World Oxford.. During the 1948 Palestine war, around 720,000 Palestinian Arabs out of the 900,000 who lived in the territories that became Israel fled or were expelled from their homes. The causes of this exodus are controversial and debated by historians.
