develops a cultural theory of international politics which contrasts with the realist mainstream. Wendt argues that states can view each other as enemies, rivals or friends, characterising these roles as 'cultures of anarchy', which are shared ideas which help shape states' interests and capabilities.

For Wendt, the beliefs that states hold about each other determine international politics -- and these ideas are constructed largely through social relationships rather than material realities. Power and interests do matter in world politics, but shared knowledge determines their significance in deciding whether states opt for balancing, cooperation,
