Detailing Resources | American Institute of Steel Construction

In steel detailing and fabrication in particular, in-house detailers have nearly disappeared at steel-fabrication firms. "In today's world, the detailing community is international, there is a lot of outsourcing, and fabrication companies are end users of detailing work done by other firms," Merrifield says.

Steel | X Steel Detailing | United States

A steel detailer is a person who produces detailed drawings for steel fabricators and steel erectors. The detailer prepares detailed plans, drawings and other documents for the manufacture and erection of steel members (columns, beams, braces, trusses, stairs, handrails, joists, metal decking, etc.) used in the construction of buildings, bridges, industrial plants, and nonbuilding structures.
