Taken By The Pterodactyl - Cliterature Review. In today's Cliterature review, we explore Taken by the Pterodactyl, a brief story that now makes Fabio the second least fuckable fossil to carry a story. Dinosaurs finally get the erotic treatment that no one has ever wanted and I couldn't be more unsettled.

~~Taken by the Pterodactyl (Dinosaur Erotica) by Christie Sims~~

Our pterodactyl repository, now covered in blood, dactyl excretion, and abrasions from the nest, halfheartedly seeks an escape route, before electing to take a nap instead. The story closes, unresolved, as the two snuggle together sharing dreams of forbidden Triassic love.

We take a look at a supposed Pterodactyl caught on tape. Tales of dinosaurs in the American southwest go back to the frontier Wild West days of cowboys and Indians.

## ~~Pterodactyls Are Not Dinosaurs. So What The Hell Are They?~~

The body of the creature was taken to the nearby town of Gray, according to the story, where it was identified as a pterodactyl by a student of paleontology. As reported in the Illustrated London News of February 9, 1856, the rock in which the creature had apparently been entombed for millions of years, contained a precise mold of its body.

## ~~Flying Dinosaurs : Pterodactyl and Pteranodon Pterosaurs~~

The dominant Pteranodon sex also had a larger, more prominent crest, which may have taken on bright colors during the mating season. As for Pterodactylus, the males and females of this pterosaur were comparably sized, and there's no conclusive evidence for gender-based differentiation.
