The Human Web: A Bird's-eye View of World History - John ...

William McNeill, author of the widely used volume *The Rise of the West: A History of the Human Community* (University of Chicago Press, 1963) and more than a dozen other monographs on aspects of world history, hinted at the themes in the present volume in his retrospective essay in the 1991 reprinting of the above-mentioned classic. Now he is joined by his son, a distinguished environmental historian, and together they survey fourteen millennia of human history in describing and explaining ...

Life and career. McNeill was born on October 6, 1954, in Chicago, Illinois. His father was the noted University of Chicago historian William H. McNeill, with whom he published a book, *The Human Web: A Bird's-eye View of World History*, in 2003. McNeill received his BA from Swarthmore College in 1975, then went on to Duke University where he completed his MA in 1977 and his PhD in 1981.

John Robert McNeill (Author of The Human Web)

The Human Web is an excellent summary of human history. It is indeed a bird's eye view in that it looks at the broad overall sweep of human affairs and doesn't bog down in unnecessary detail. The major theme is the construction and expansion of human webs, or interconnections that tie cultures and civilizations together ever more tightly.

Amazon.com: The Human Web: A Bird's-Eye View of World ...

In just over 300 pages, "The Human Web" summarizes the history of humankind, from the first steps our ancestors took on the African savanna some 4 million years ago to the beginning of the 21st century. The authors, father and son McNeill, use as a framework the ever expanding networks of human interaction,...

The Human Web: A Bird's-EyeView Of World History by J. R. ...

From the thin, localized webs that characterized agricultural communities twelve thousand years ago, through the denser, more interactive metropolitan webs that surrounded ancient Sumer, Athens, and Timbuktu, to the electrified global web that today envelops virtually the entire world in a maelstrom of cooperation and competition, J. R. McNeill and William H. McNeill show human webs to be a key component of world history and a revealing framework of analysis.
