It shows an even pattern with good contrast between light and dark areas, so the reflections appear crisp and well balanced. This tells you that the cutter created the best possible stone from the rough. A Very Good cut grade means the diamond has bright areas evenly distributed across the stone's crown and few distracting areas.

Light and dark - KS2 Science - BBC Bitesize

Lord Light's real identity reveals a new enemy, more frightening than the conquering Egyptians or any individual: the Stone Light, craving new societies to conquer à la IT from A Wrinkle in Time. Meyer's prose style can feel aloof and awkward; however, the complex loyalties and unusual settings are memorable.

The Stone Light, The Dark Reflections: Book #2 - Audiobook ...

An object that is white, would look red in a red-colored light because white contains all colors. But if a blue light were shined on a red ball, the color on the ball would be very dark, because the red color only contains red, not blue, so it absorbs the blue light instead of reflecting it. The color of an object depends on the light cast upon it.
