I had the AD41P hauled out of my blackfin 29 in November, onto a uhaul trailer, into my garage. Stripped off externals, following workshop manual. Made a mounting plate out of 5/8 steel plate for \$90 instead of Volvo's \$1000 #9999946, bolted to universal engine stand (\$85) vs. Volvo's \$4755 #9986485 stand.

I own a 1989 Aquastar 33 fitted with TAMD 41B engines (200 hp) which smoke quite badly when cold, and still quite noticeably when warm. I have just had new injectors fitted in the hope that the problem would be reduced (or even eliminated) but it has made no difference. Engine oil consumption between services is nil. They have each done about 1800 hours but have been regularly serviced.
