books have a fairly regulated structure, though there are some exceptions and some leeway. Some chapter book authors have chosen to lengthen each chapter book they write in a given series, with the idea that the reader's comprehension ability and attention span will increase with every reading. What we're seeing right now.

Abstract. Some medical writers choose to write book chapters or even edit or write a book of their own.

Writing a book chapter is a lot like writing a review article, except that it generally requires an invitation from a book editor who will assign the topic and perhaps specify the approach desired.
